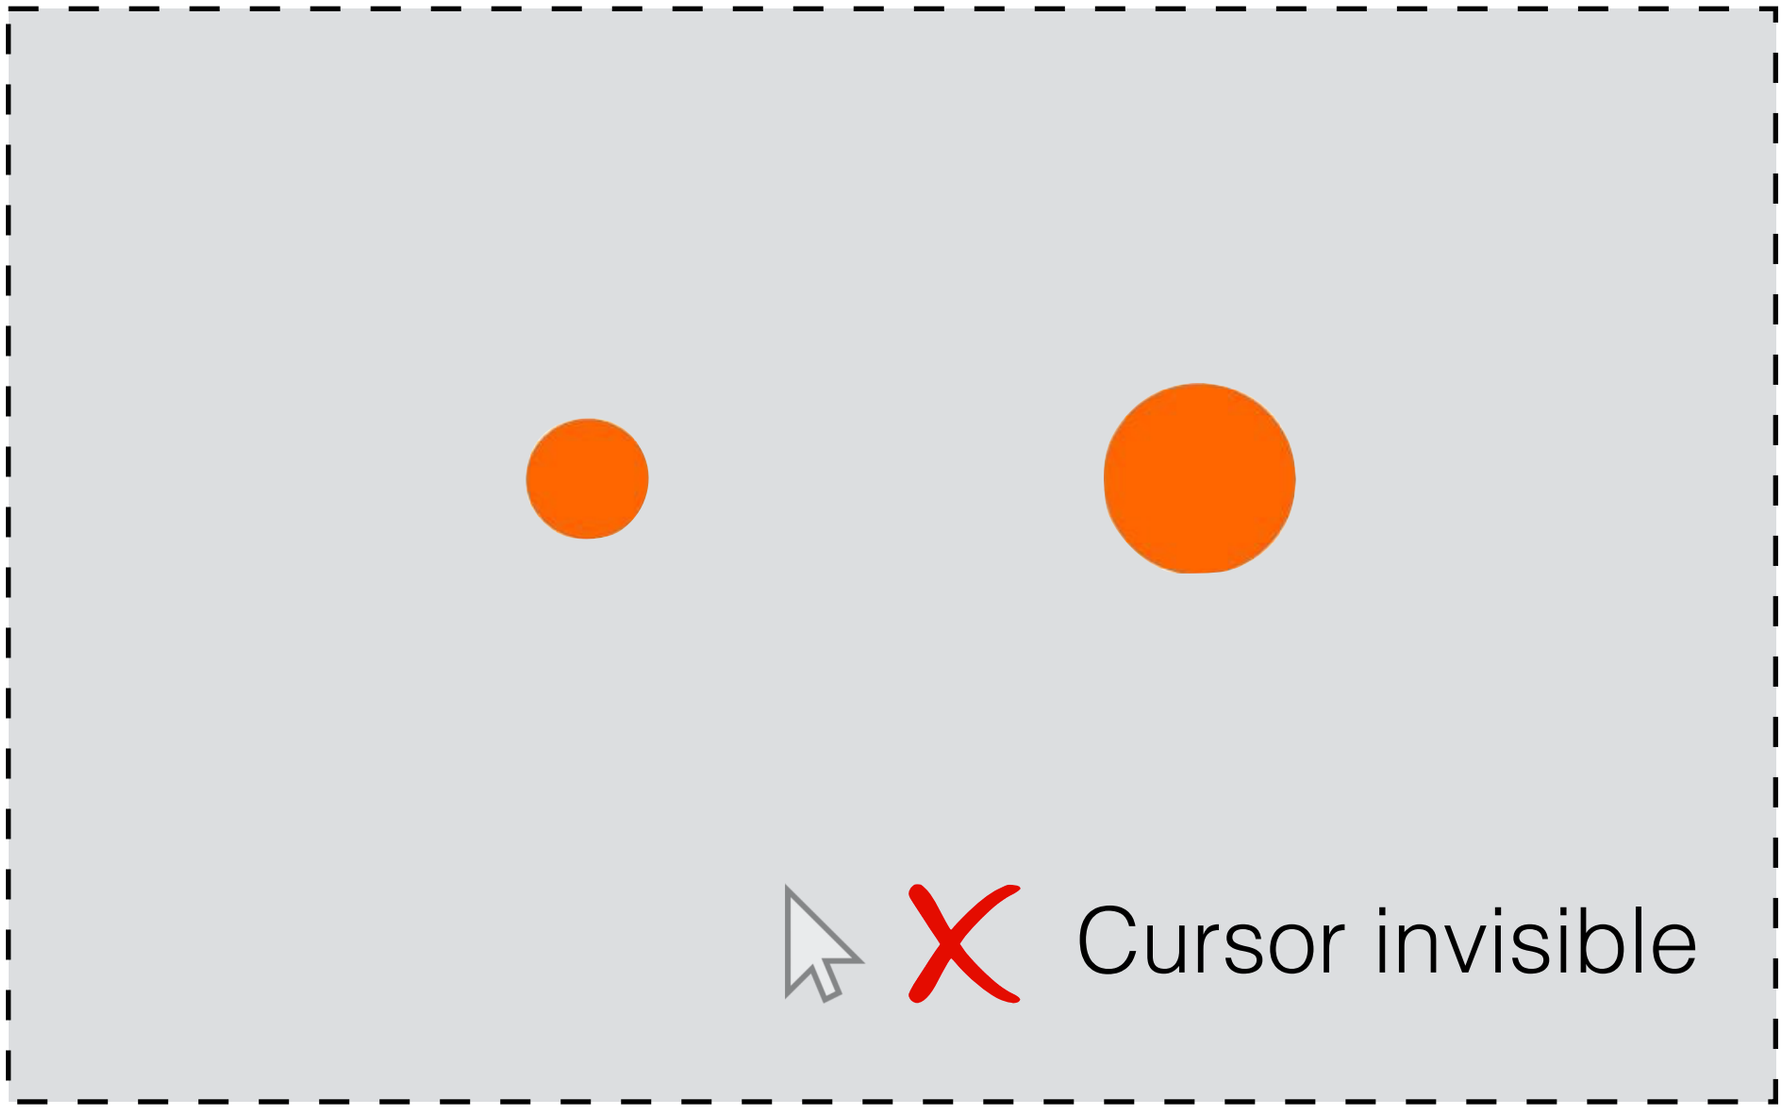
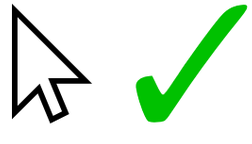
Now, we are now going to play the **Big Circle game**.
In this game, you will see two orange circles like these.

To minimize interference, during this game you will not be able to see your cursor around the circles

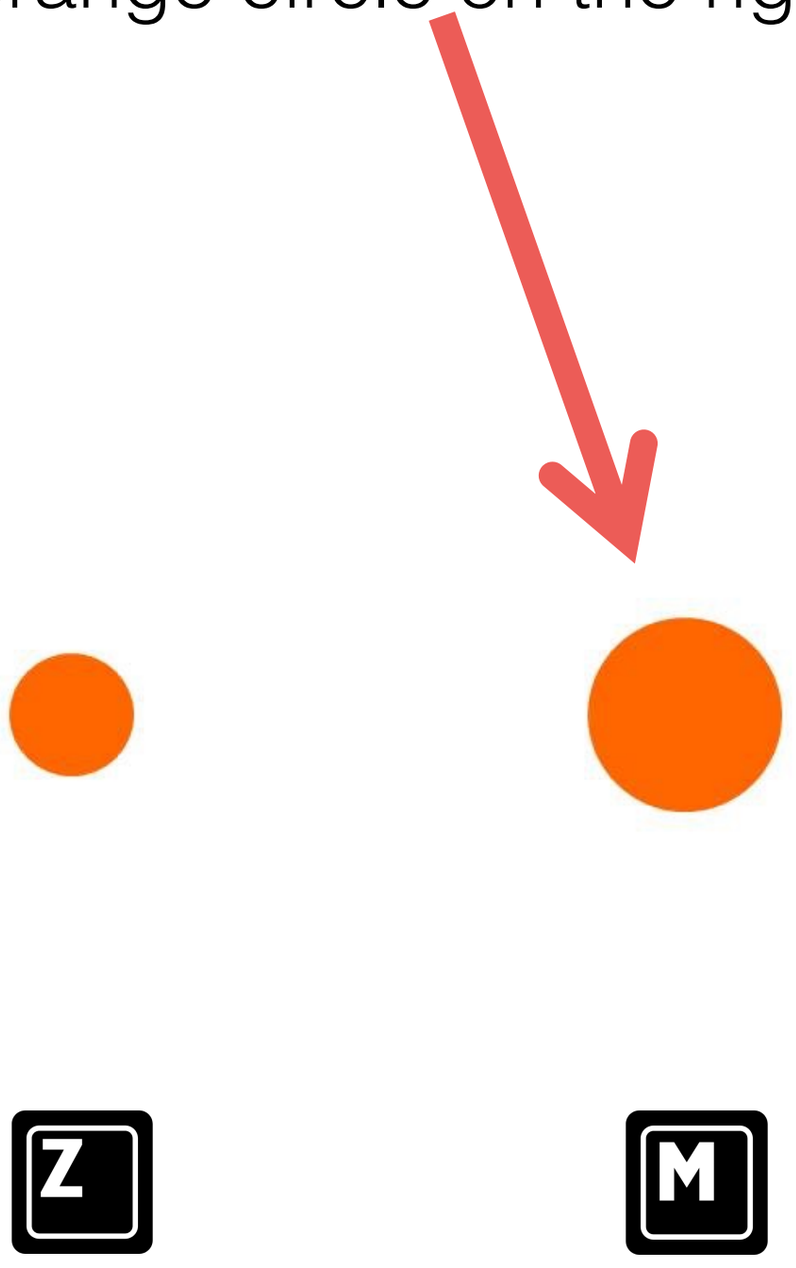




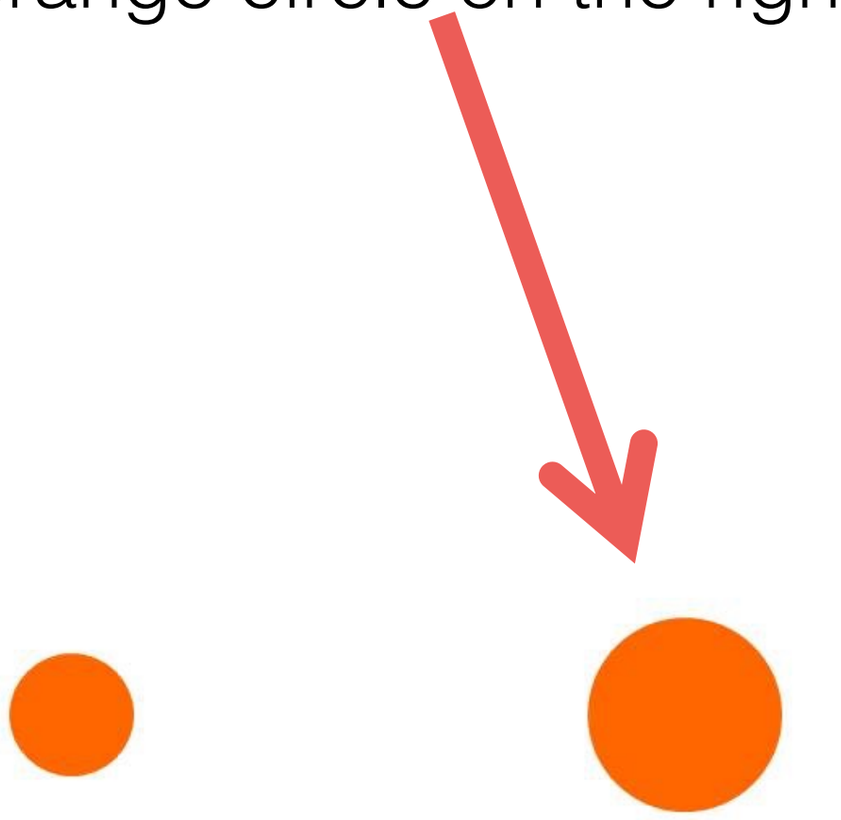
Cursor visible

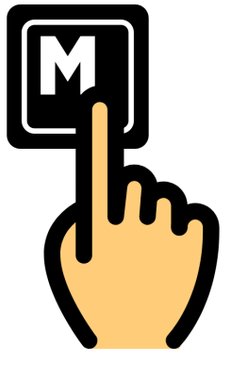
The game is to find the larger circle between the two.

If you think the orange circle on the right is larger……



If you think the orange circle on the right is larger……





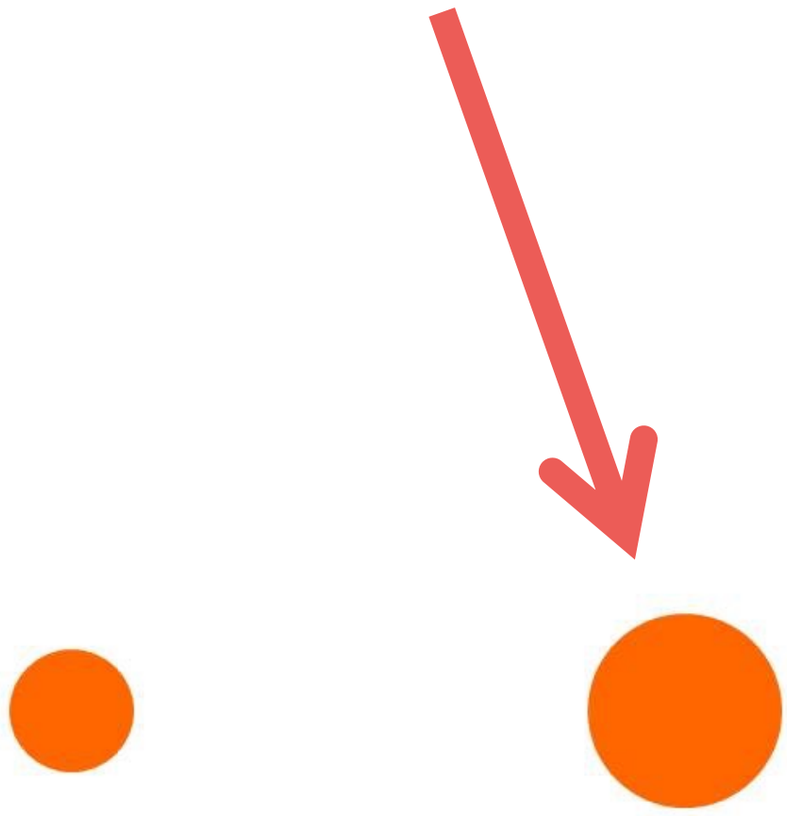
press this key!

OK? Let’s practice the game!

Great!
You are now ready to play the game for real.
You will see many more circles.

Now we'll try it again, but remember what you need to do.
Let's go over it again together..

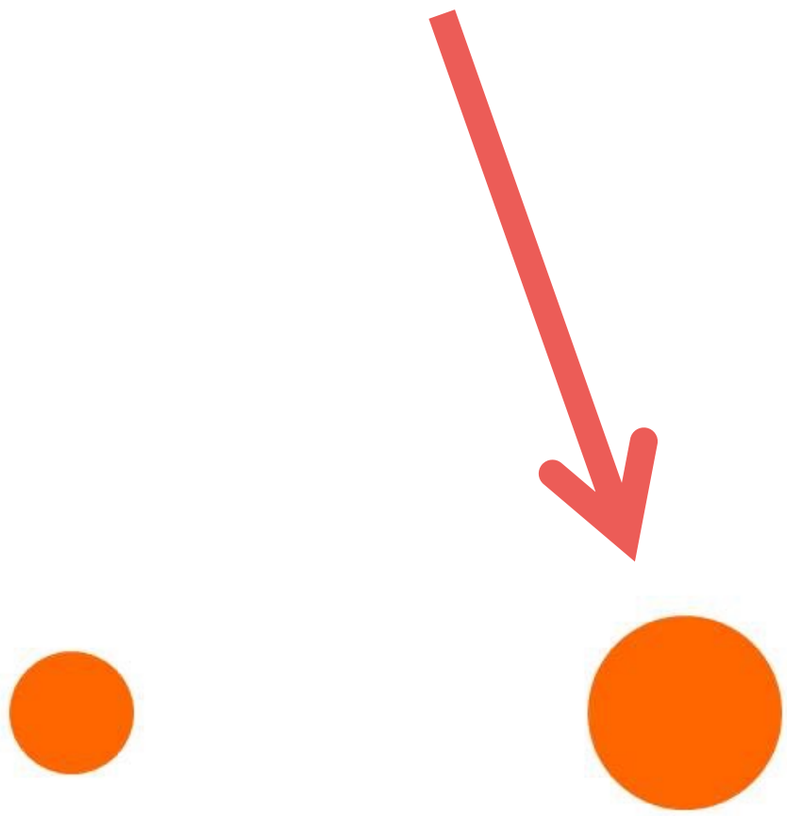
If you think the orange circle on this side is larger……

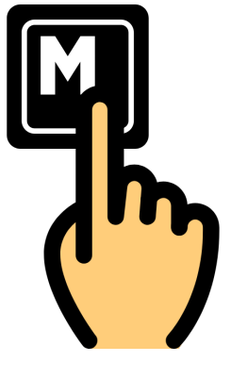


Z

M

If you think the orange circle on this side is larger……



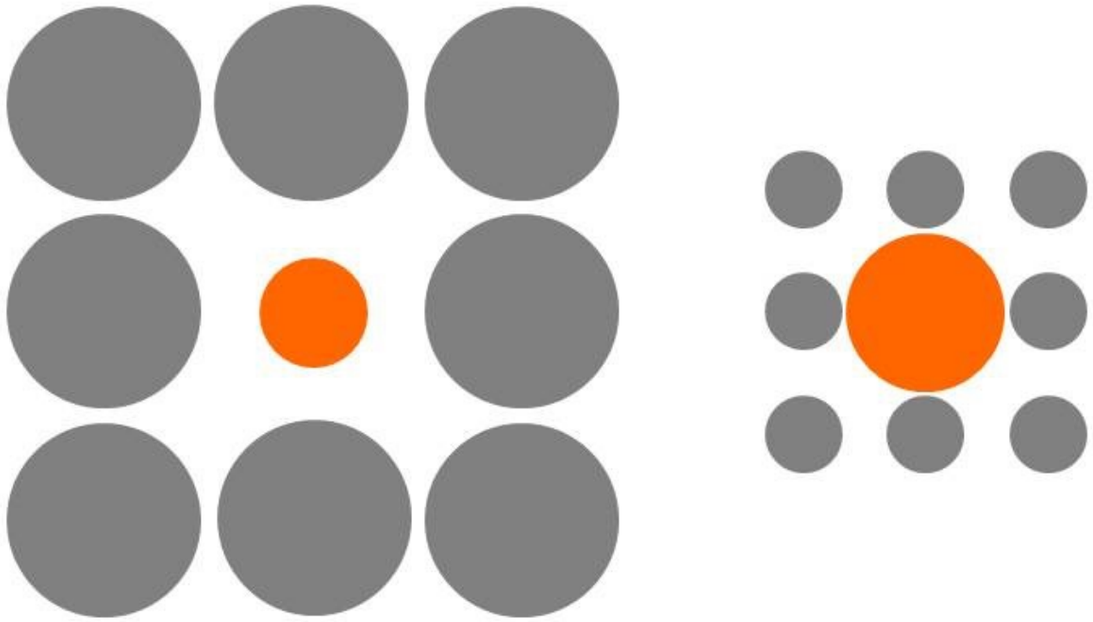


press this key!

Some maybe difficult, but then you can make a guess. Ready?

Let’s play the next game.
This game is a little different.

In this game, you will see gray circles around the orange circles.



In this game, you will see gray circles around the orange circles.

Now we are going to play a picture game.
I’m going to give you some stickers,
and you can put them together to make a picture.

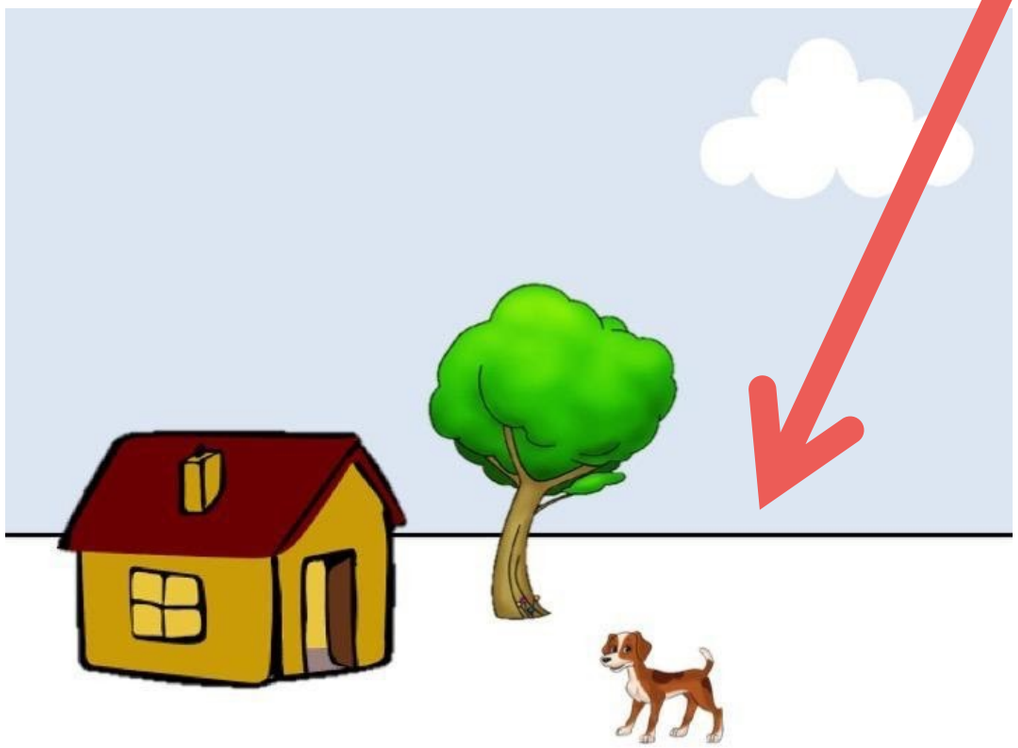
There is no right way or wrong way to make the picture,
and you can make your picture any way you like!
You can put as many stickers as you want!

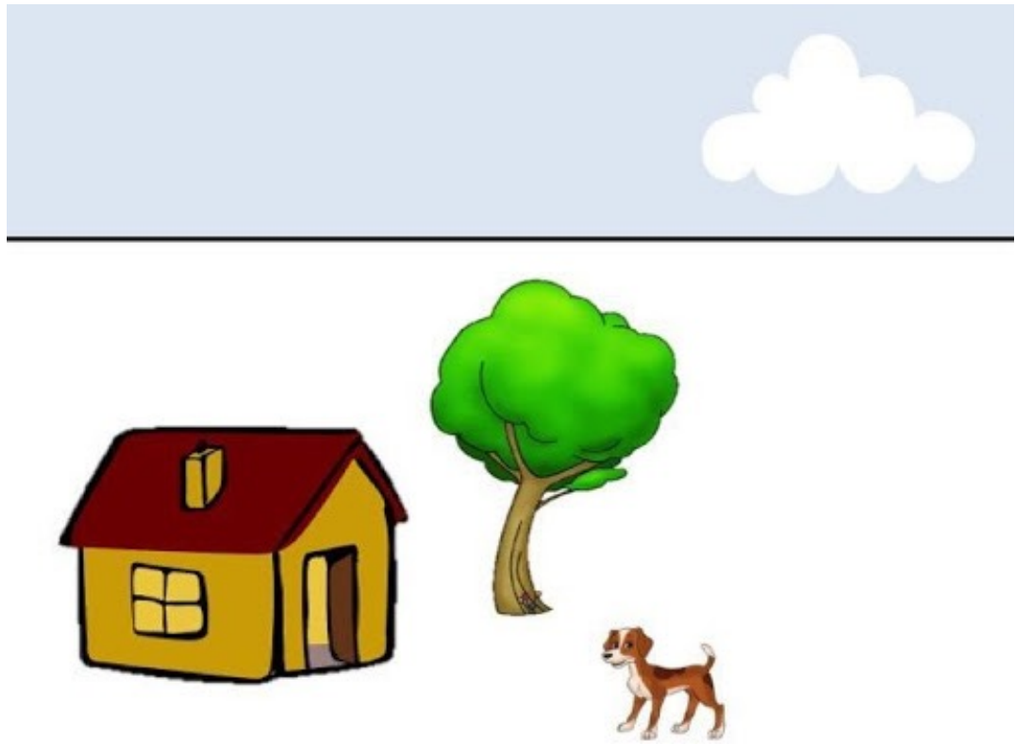
This will be a picture of the outside,
so your picture will have a **horizon**.
Do you know what a **horizon** is?

o outside, you see the sky comes down and meets the ground, and mak

That line is called a horizon.

This is a horizon



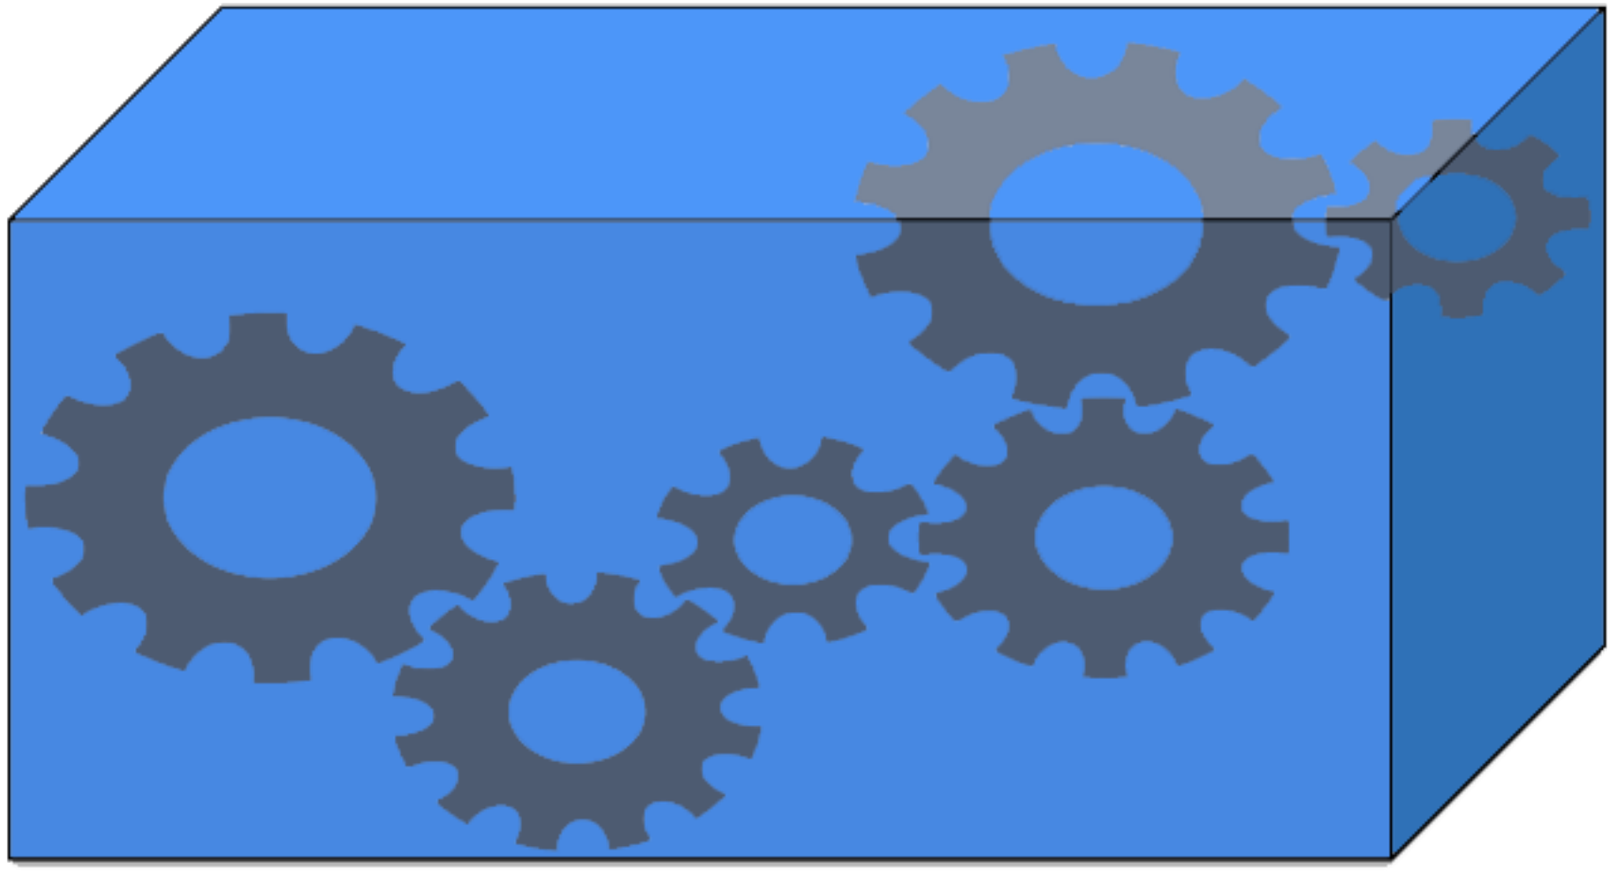


This is also a horizon

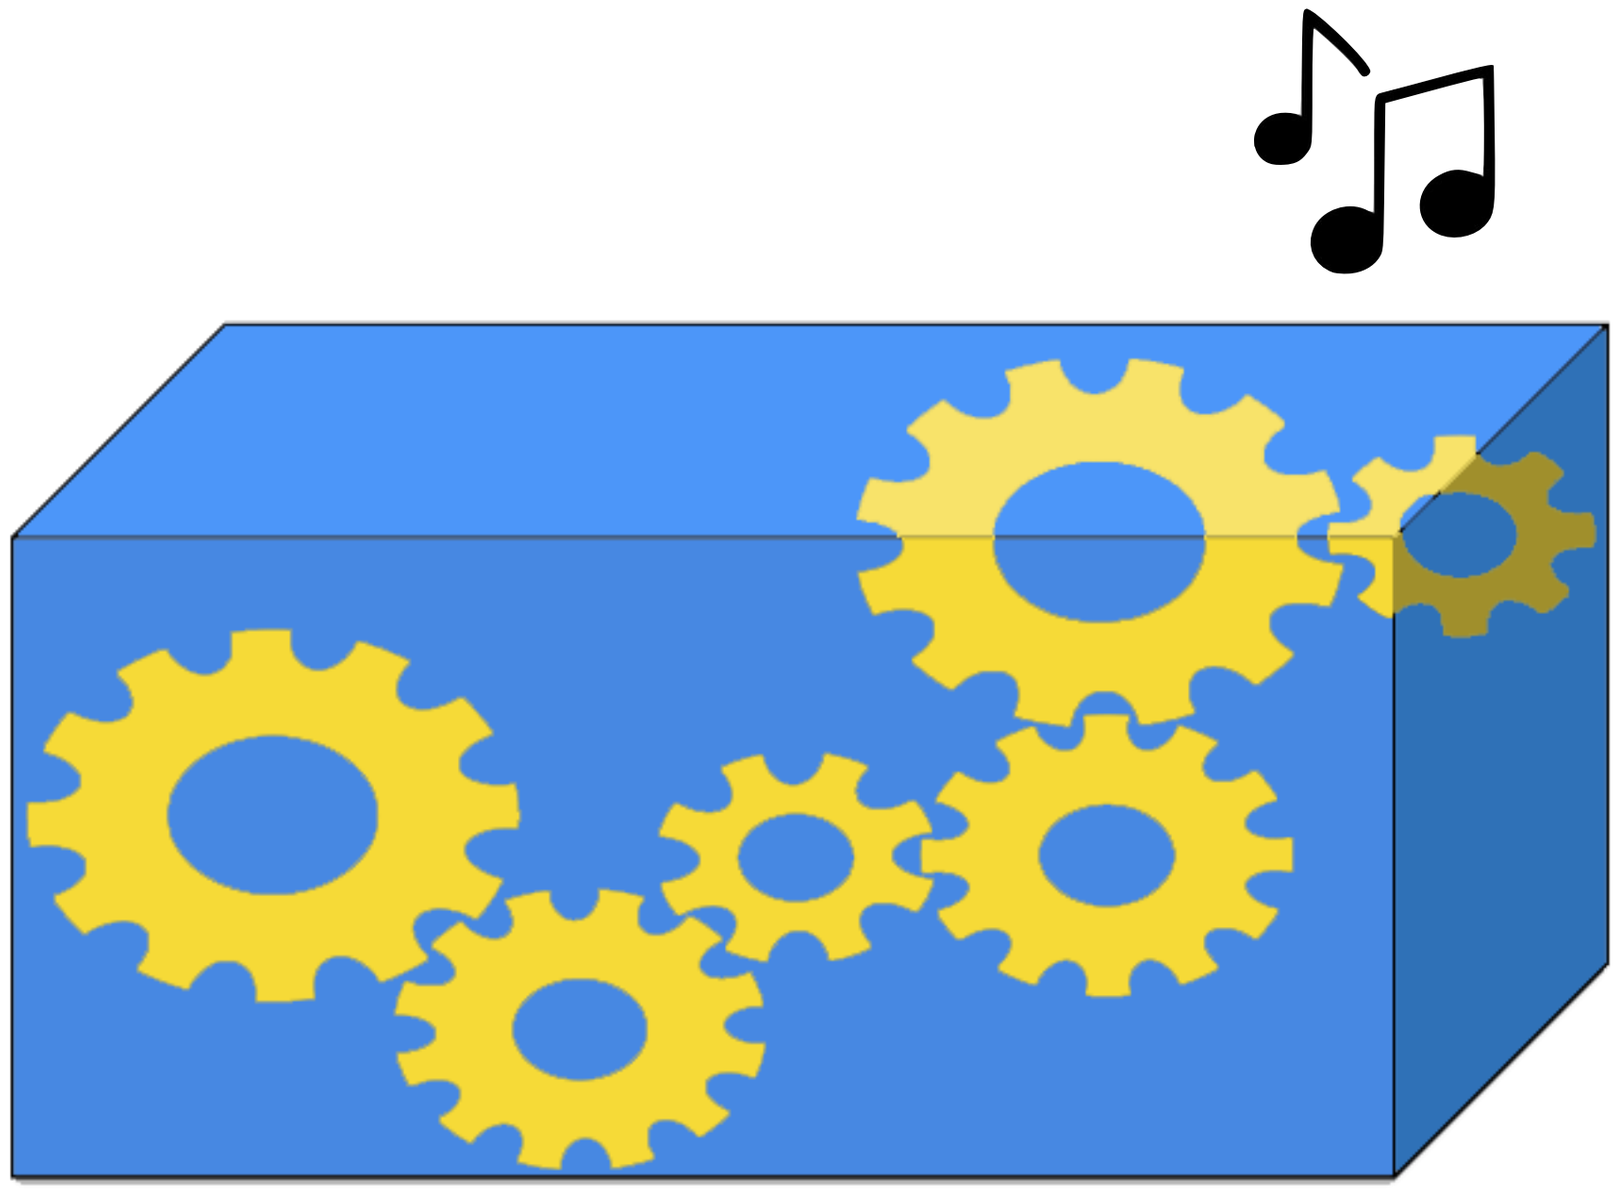
Remember to put a horizon line in your picture!

Now that you know how, you can make your own picture with these stickers!

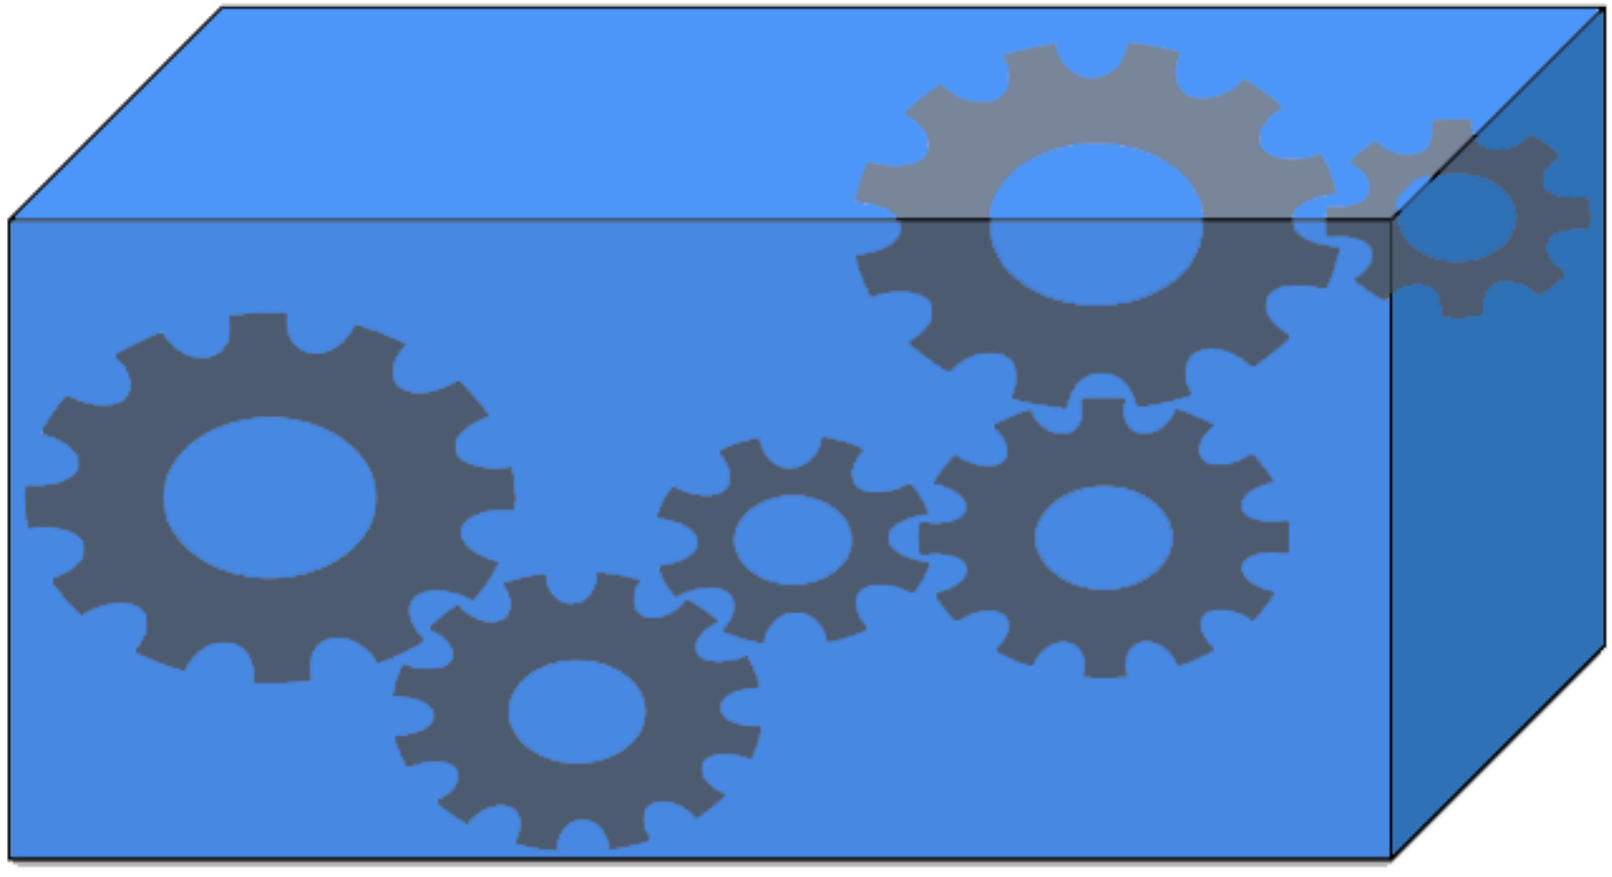
In this game, you'll learn about my toy,
which is a special machine.



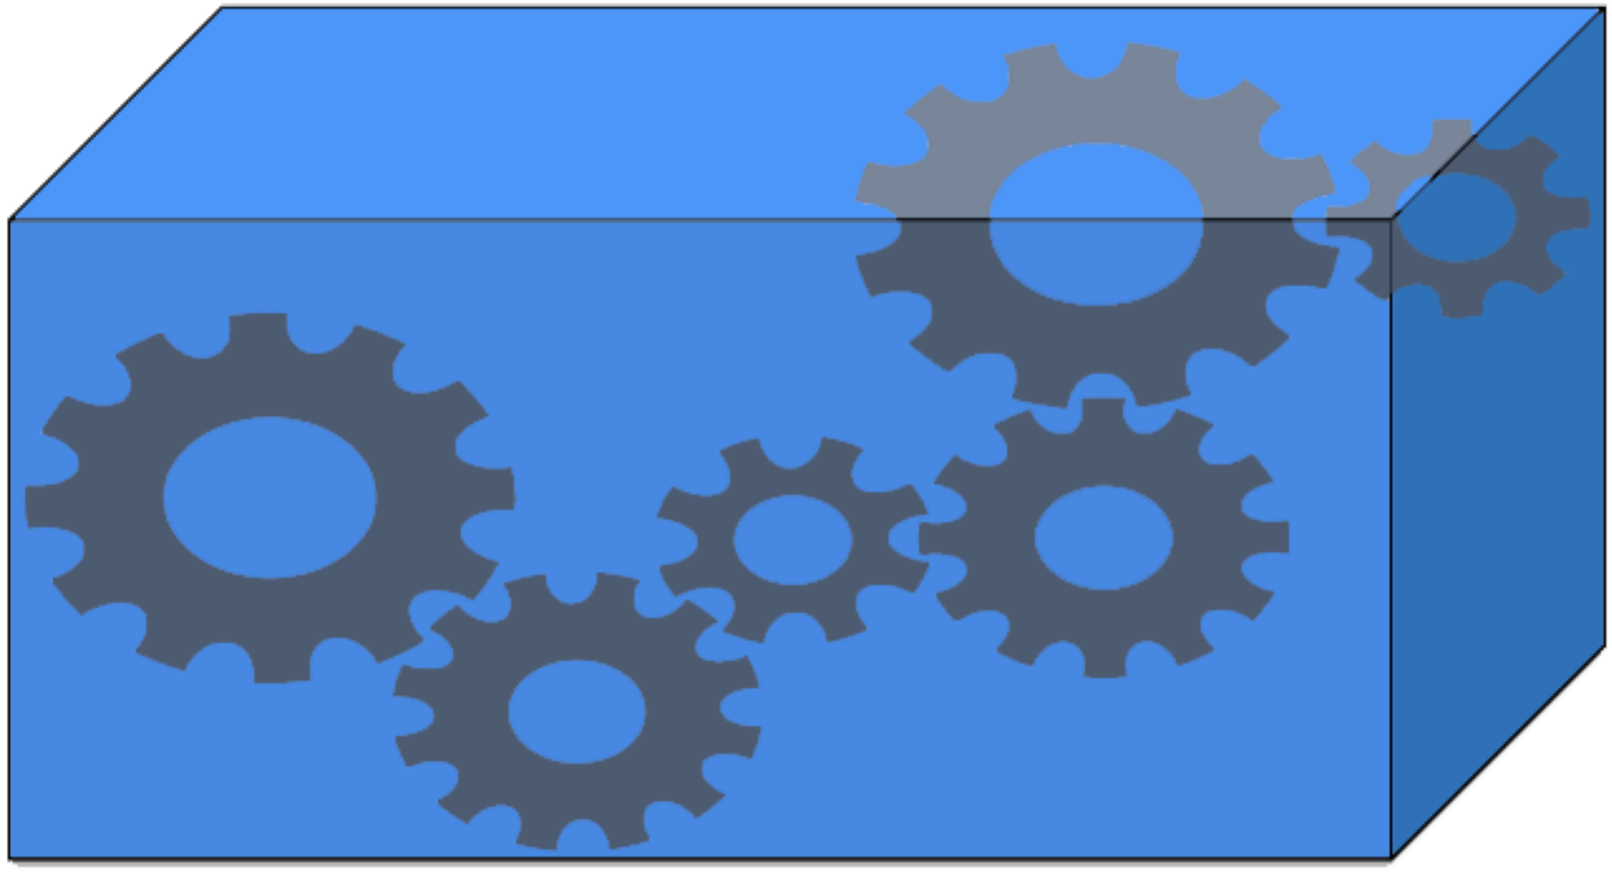
Sometimes when I put things on top of my toy
my toy plays music



and sometimes when I put things on top of my toy,
it does not play music.



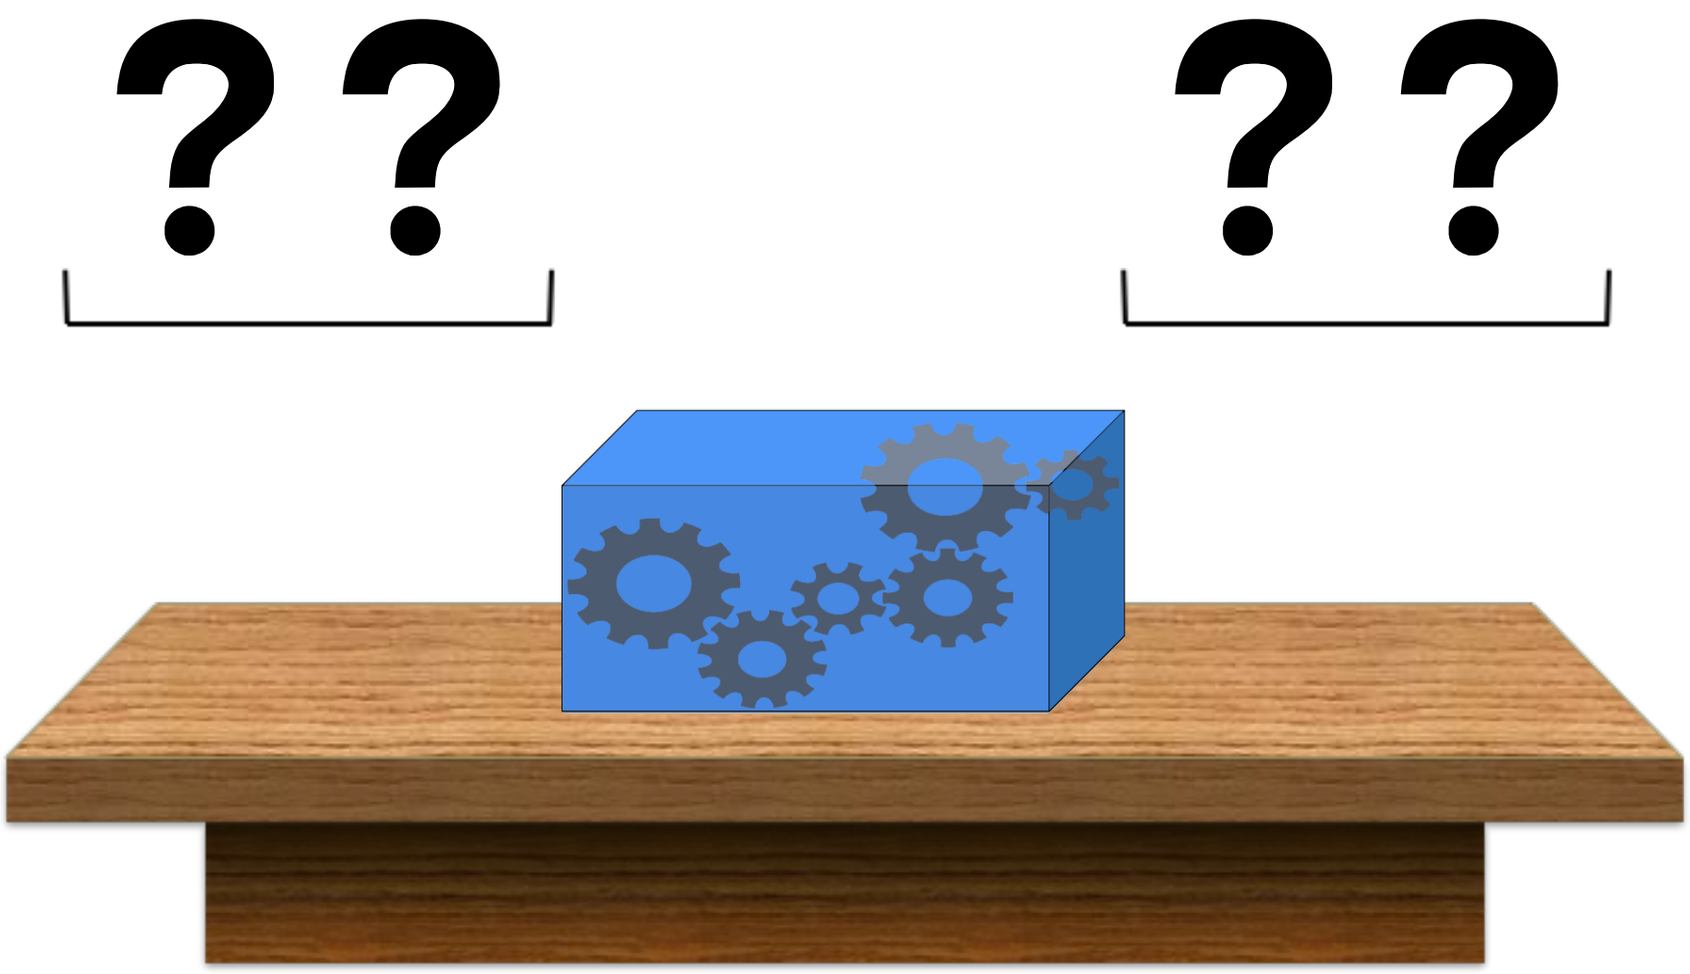
We'll try putting different things on my toy.
watch and find out which things make my toy play music. Let's se



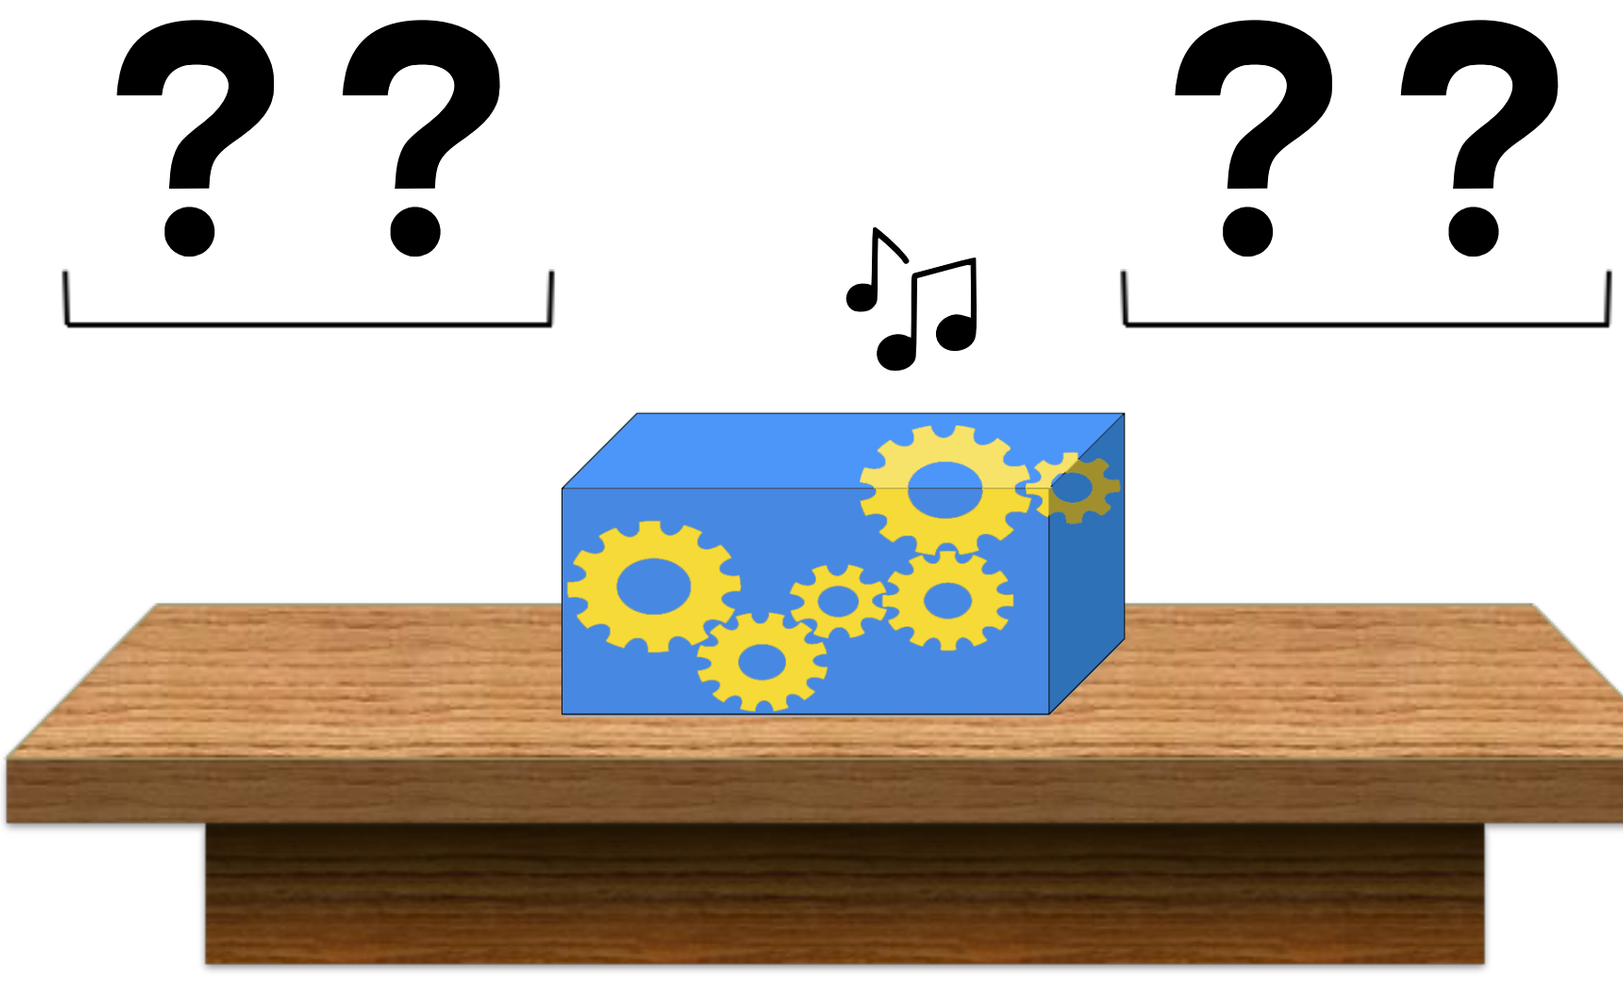
Now that you know how my toy works,
my friends need your help finding the things that will
make my toy play music!

Can you help us?

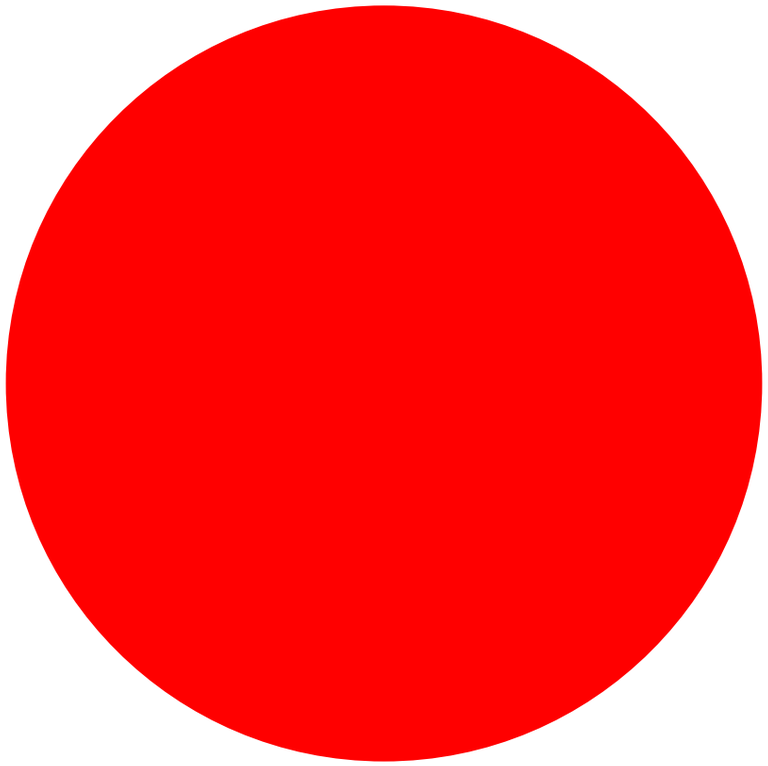
Only one of the trays has the things that will make my toy play music.



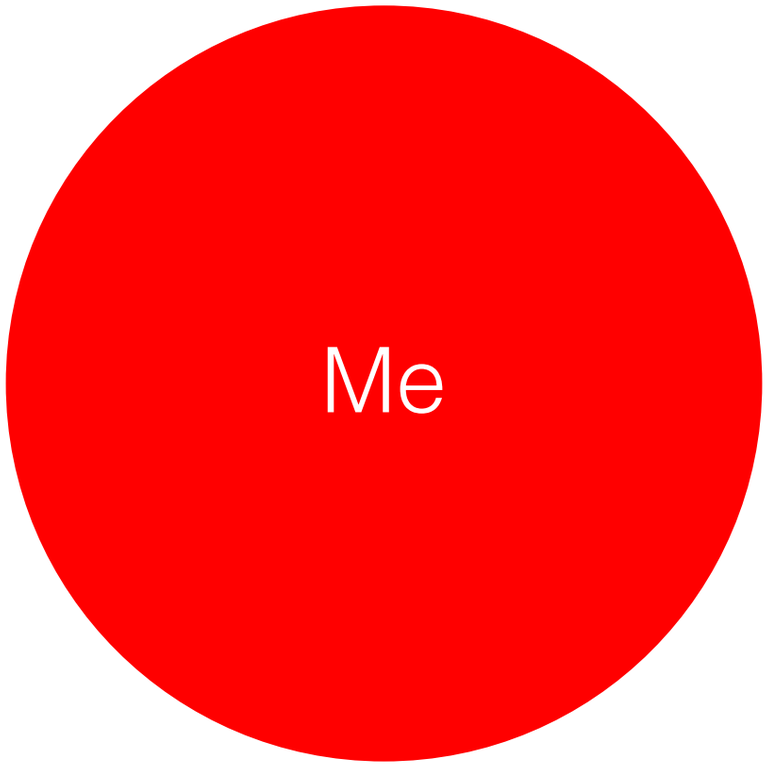
Can you help my friends?
Click on the tray that has the things that will make my toy play music.



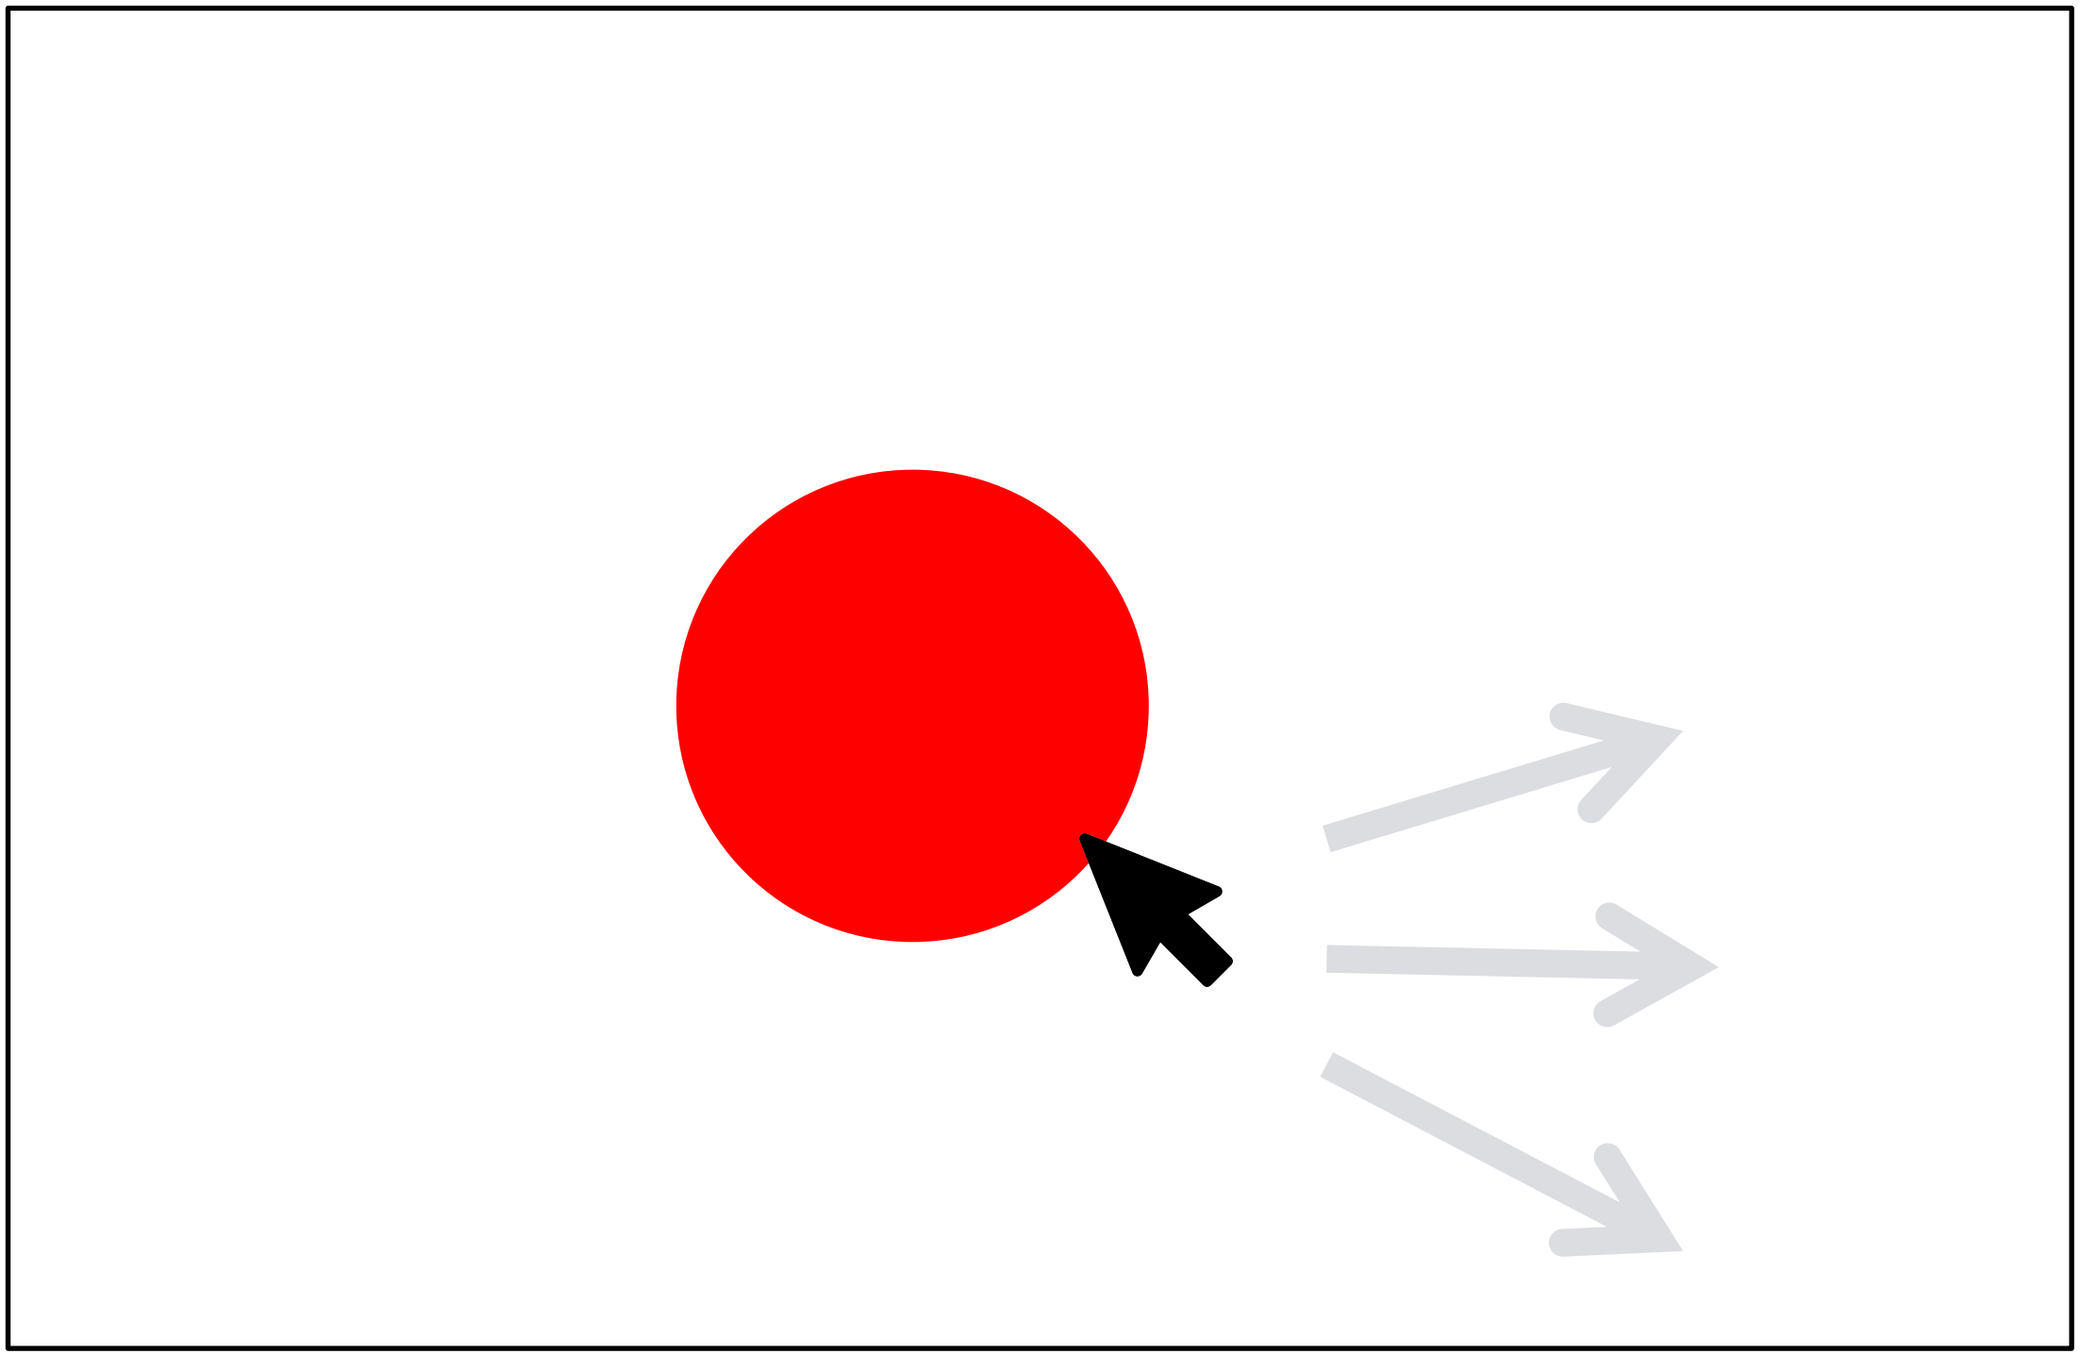
In this game, I want you to draw yourself and your family members as circles.



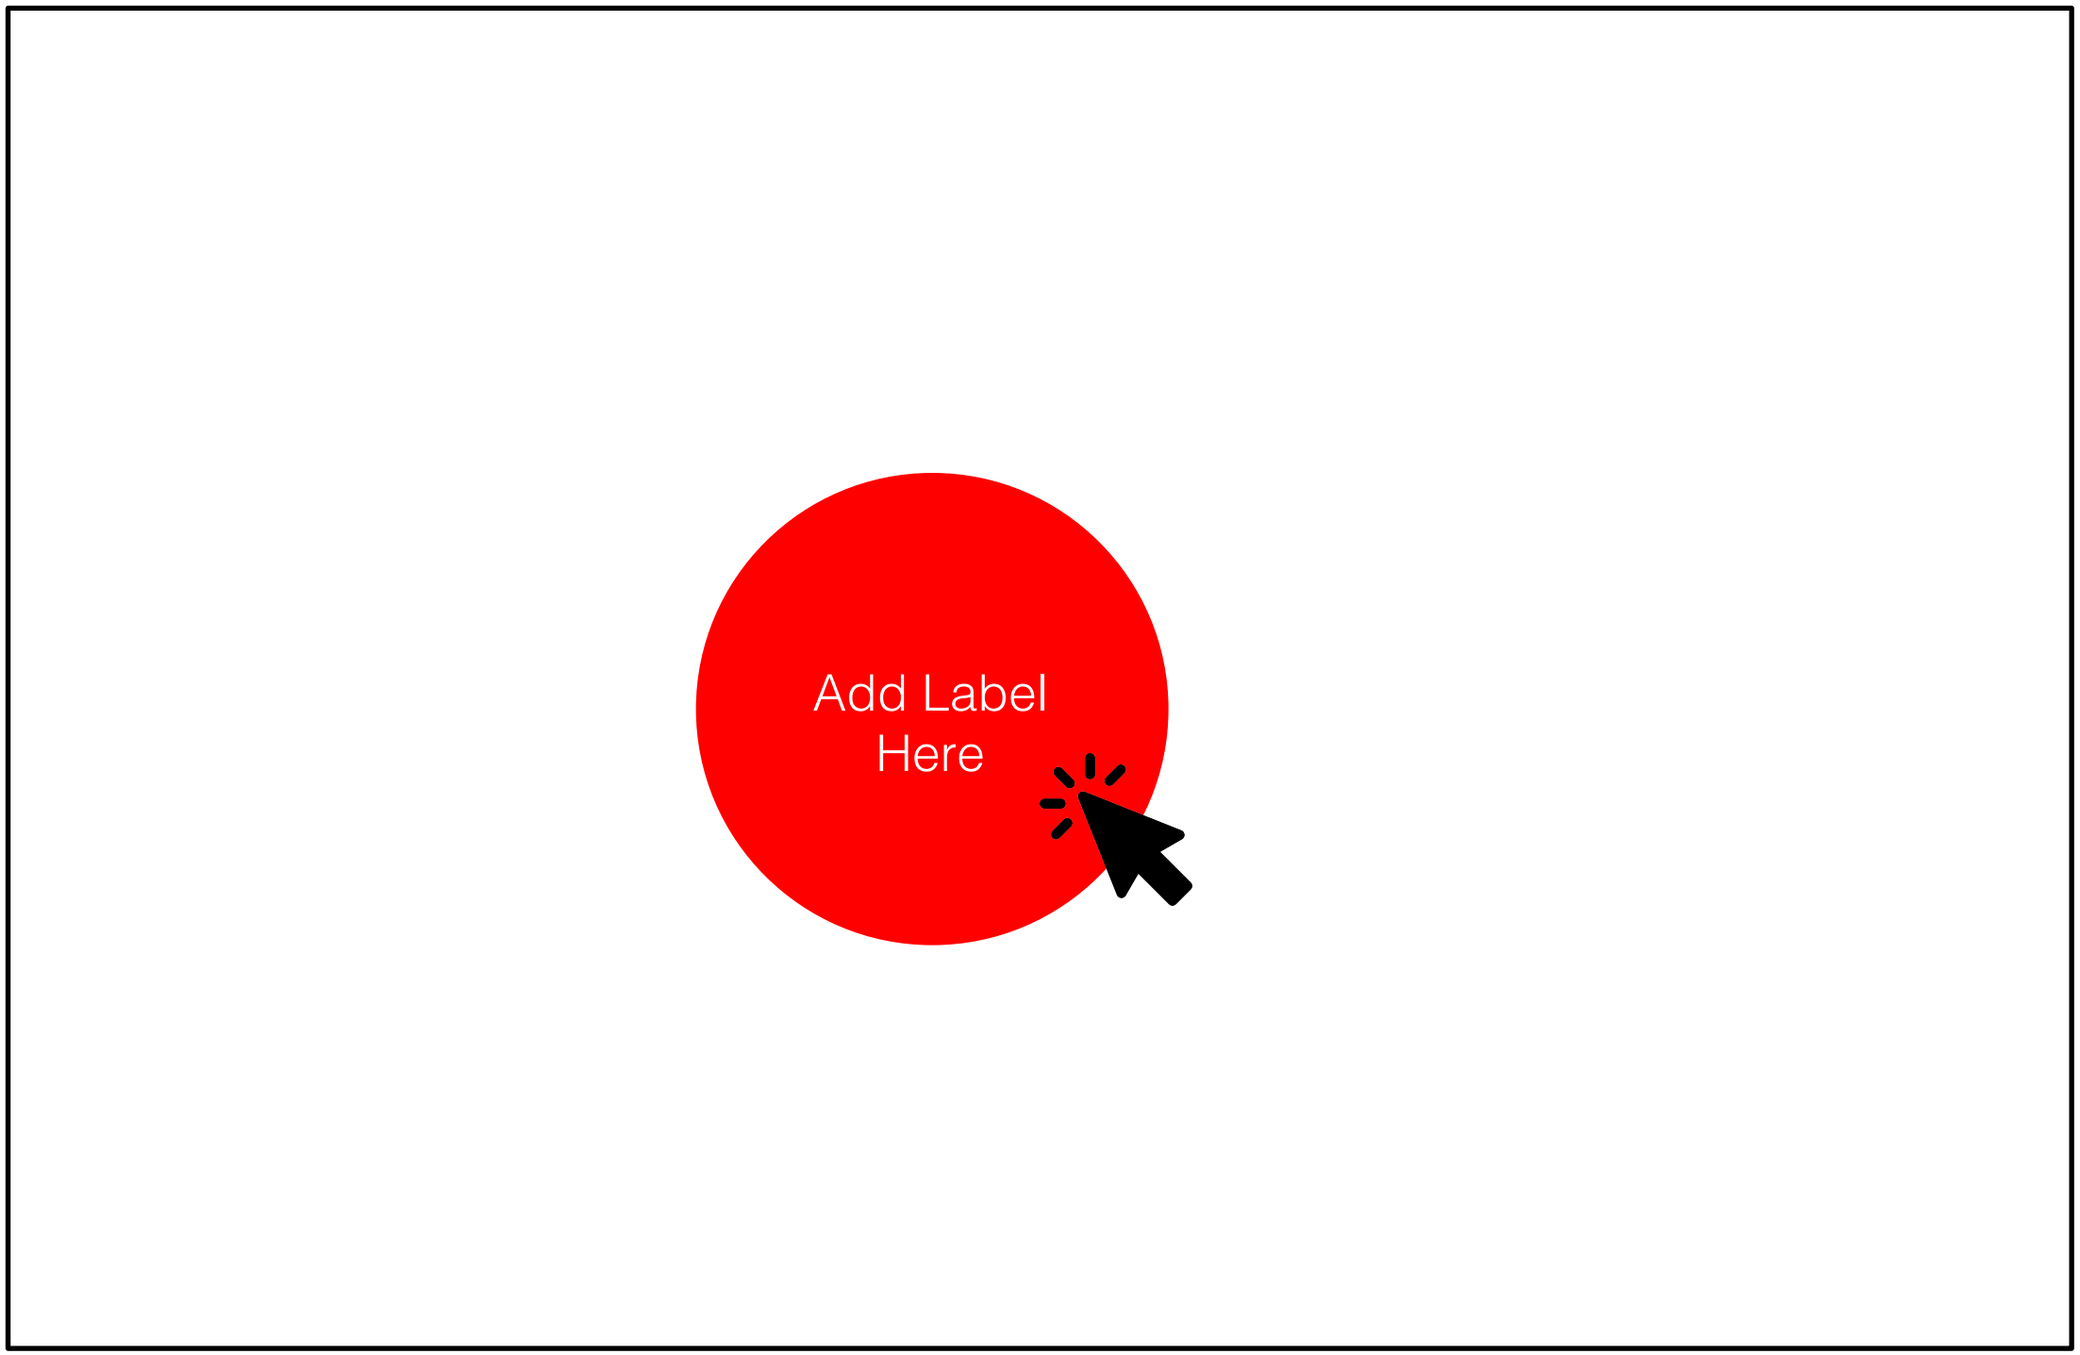
…and label the circles for the people they represent.



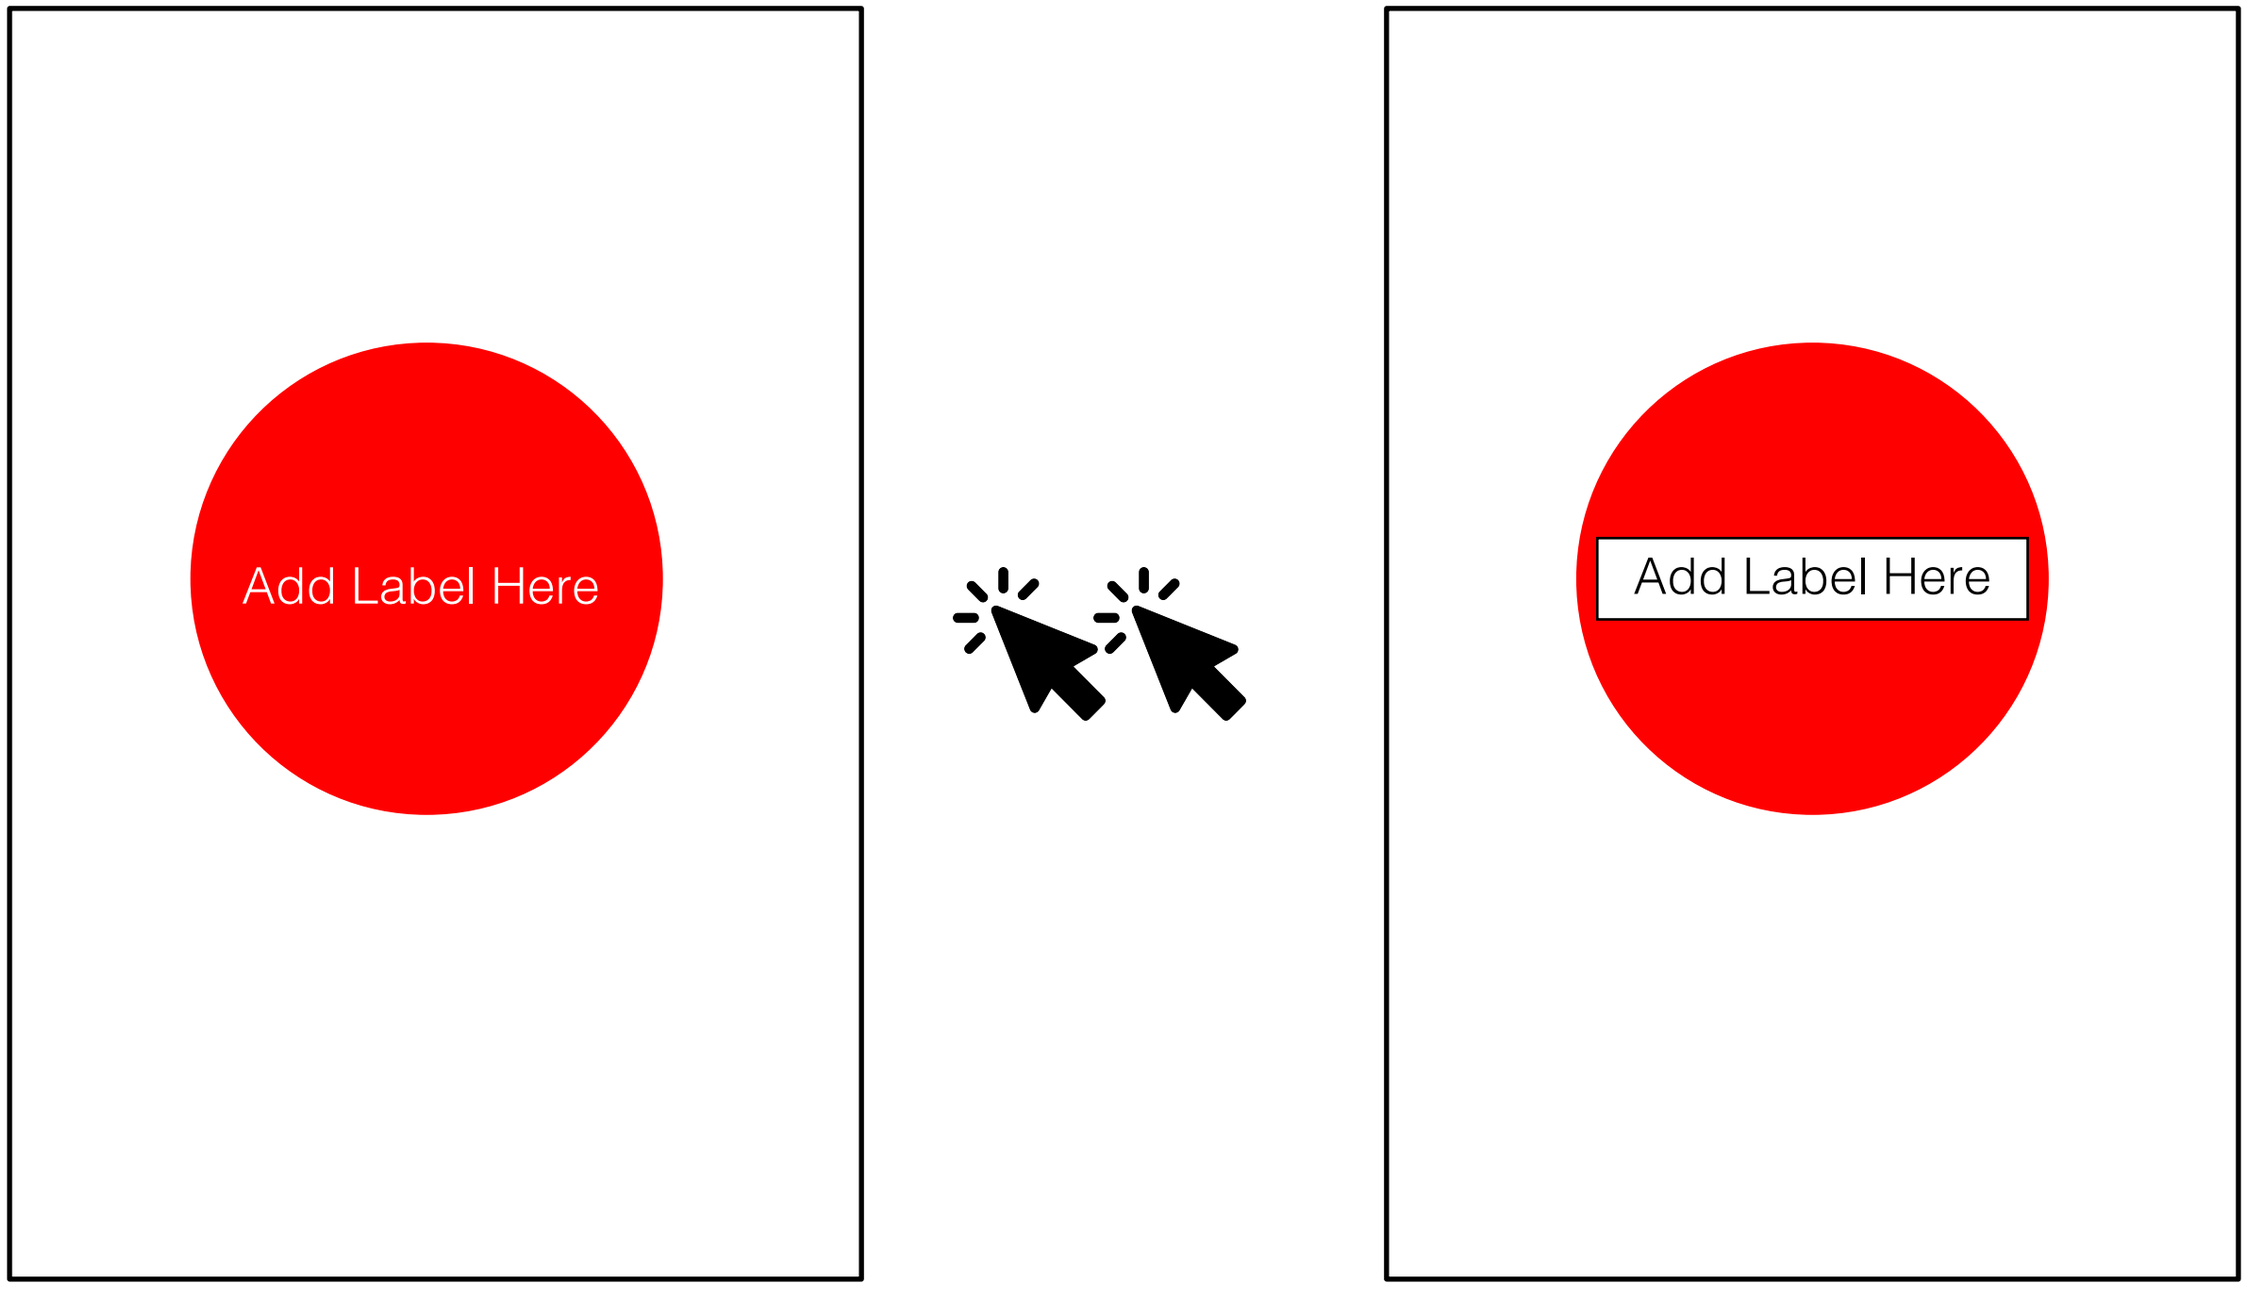
To draw a circle, simply click and drag.



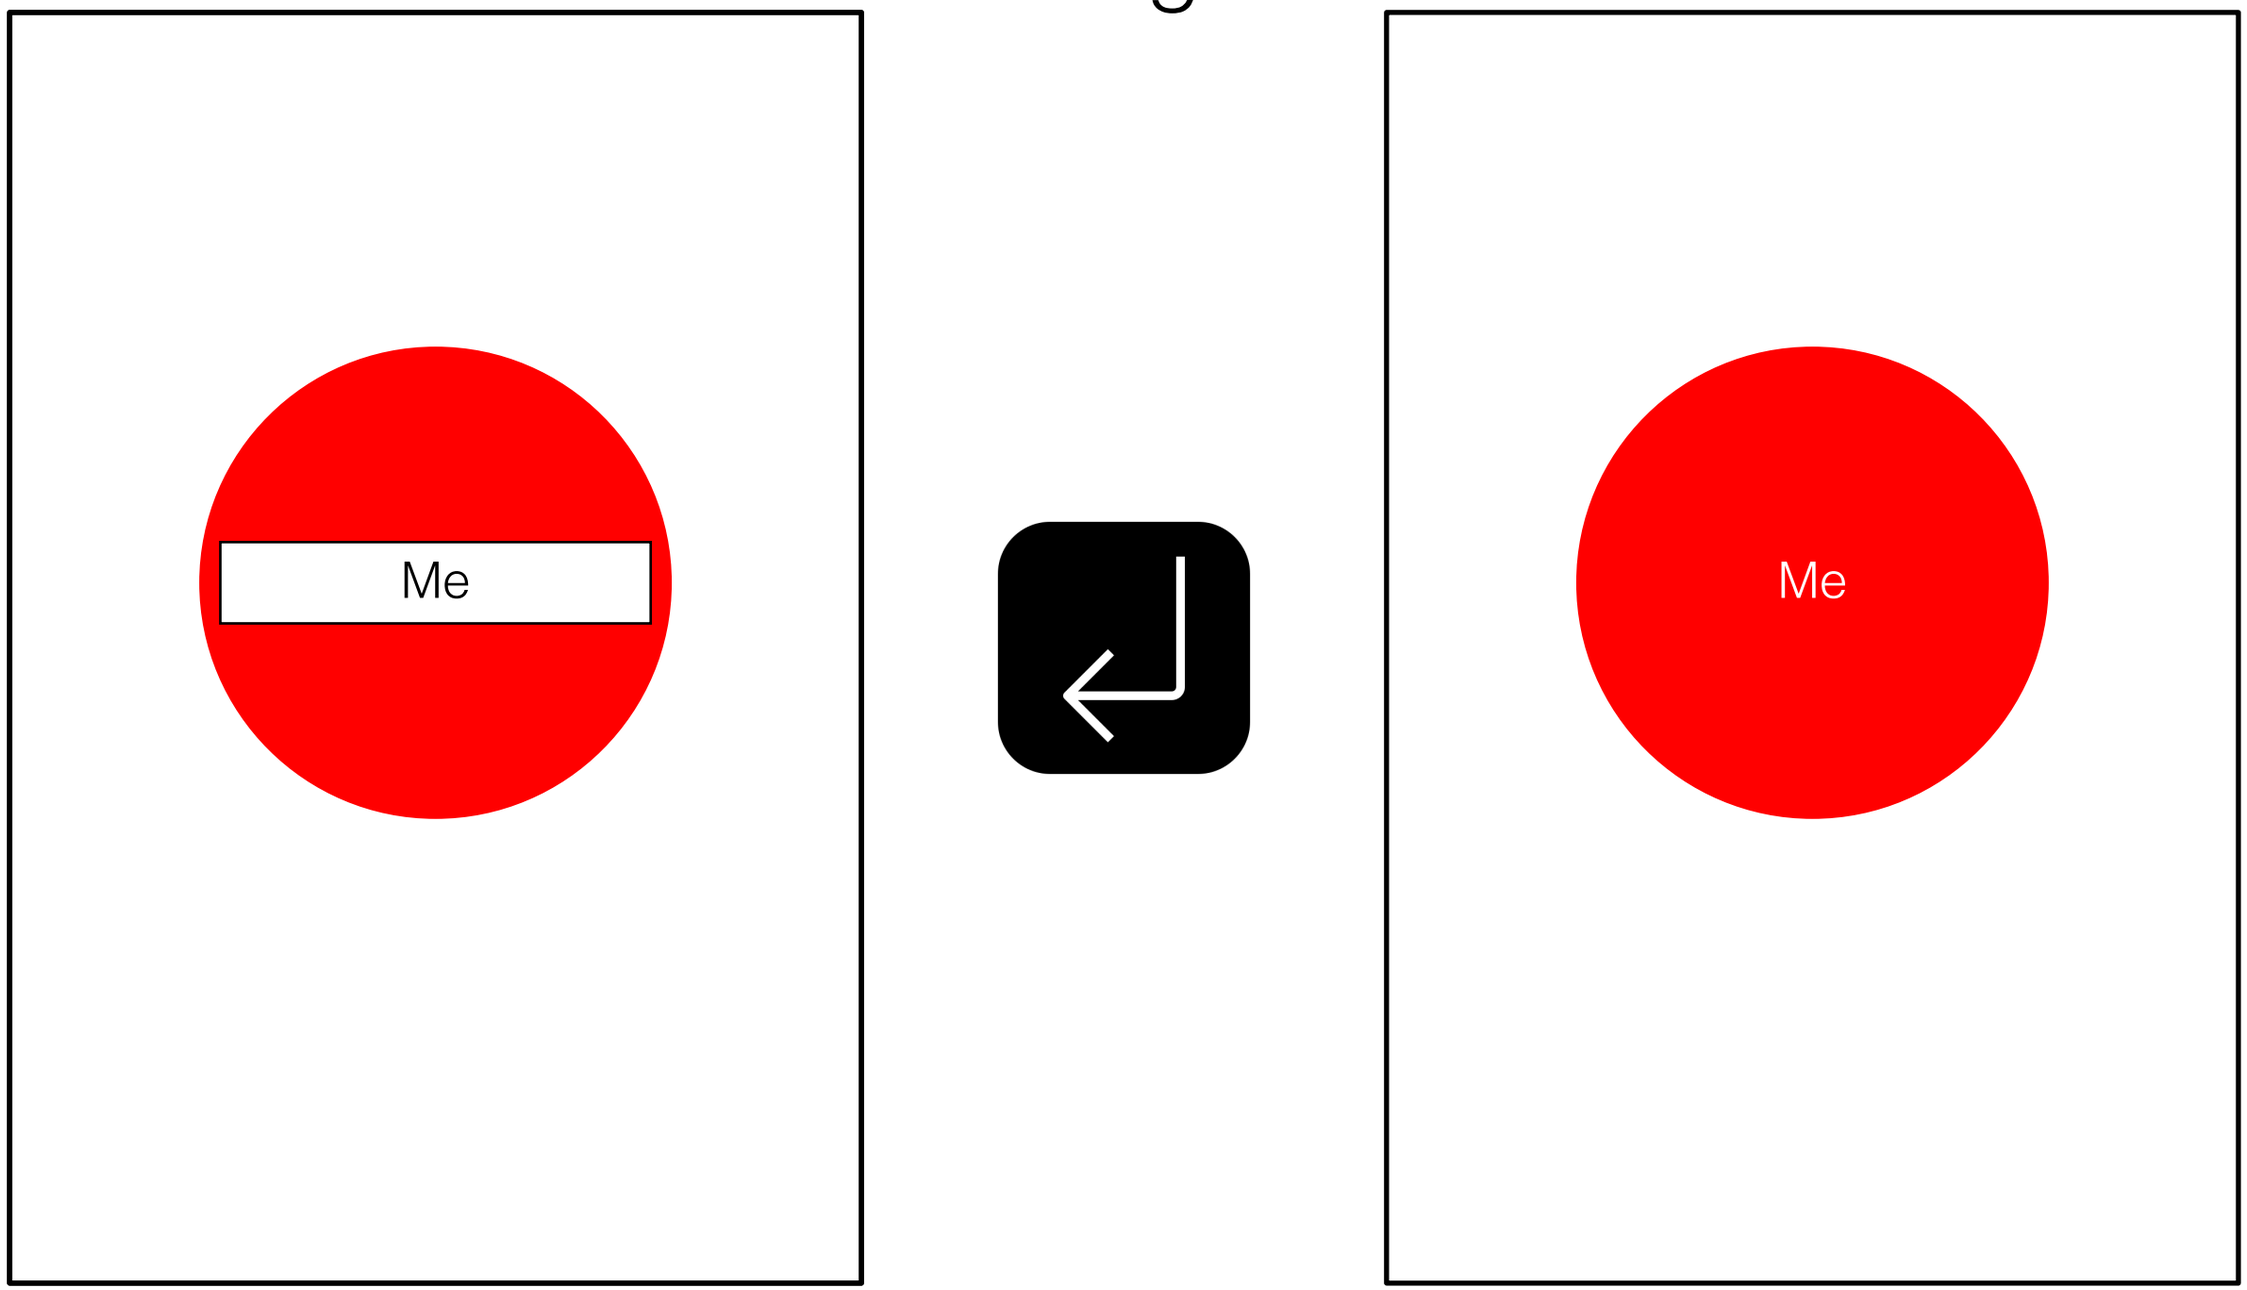
To label a circle, click on the circle you just drew.



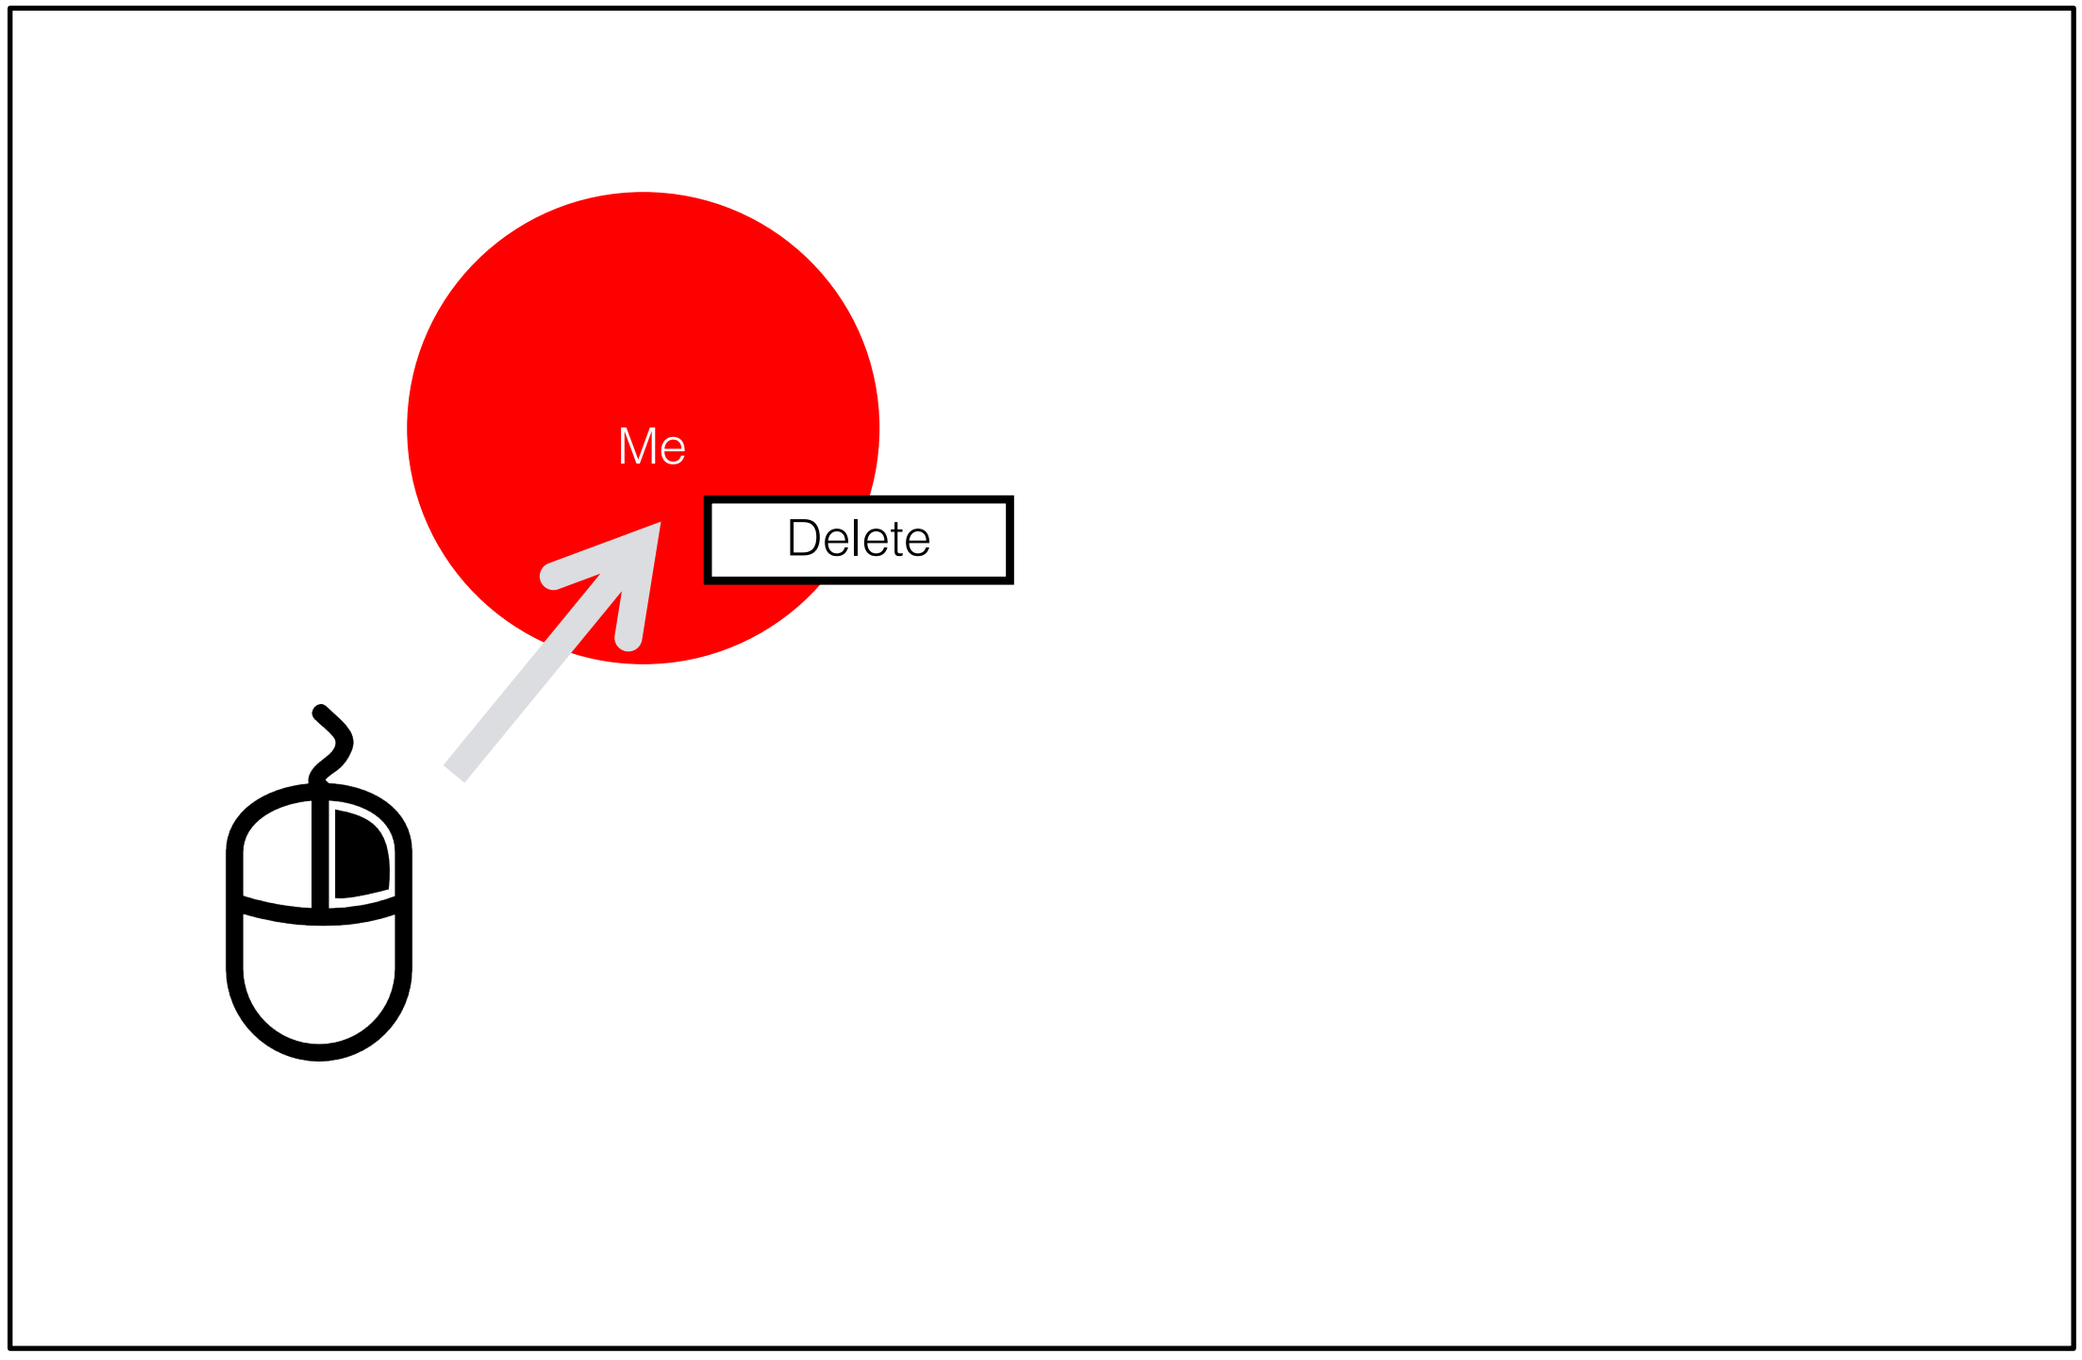
Double clicking on “Add Label Here” to enter your label in the textbox.

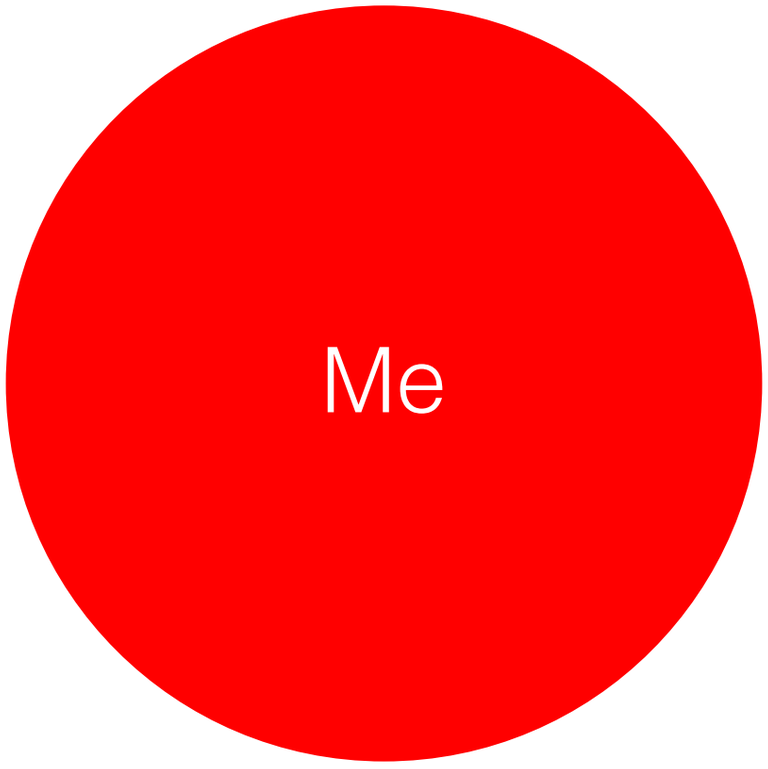


When you are done typing, hit “Enter” on your keyboard. You can edit the label by double clicking on it again.



If you need to delete a circle or label, right click on it.
You will see a delete button.





Start by drawing a circle for yourself and labeling it “Me”
